Applicant				
GOOGLE INC.				
Filling of amendments and statement under Article 19: The applicant is entitled, if he so wishes, to amend the claims of the International Application (see Rule 46): When? The time limit for filing such amendments is normally 2 months from the date of transmittal of the International Search Report; however, for more details, see the notes on the accompanying sheet. Where? Directly to the International Bureau of WIPO, 34 chemin des Colombettes 1211 Geneva 20, Switzerland, Fascimile No.: (41-22) 740.14.35 For more detailed instructions, see the notes on the accompanying sheet. 2. The applicant is hereby notified that no international search report will be established and that the declaration under Article 17(2)(a) to that effect and the written opinion of the International Searching Authority are transmitted herewith. 3. With regard to the protest against payment of (an) additional fee(s) under Rule 40.2, the applicant is notified that: the protest together with the decision thereon has been transmitted to the International Bureau together with the applicant's request to forward the texts of both the protest and the decision thereon to the designated Offices, no decision has been made yet on the protest; the applicant will be notified as soon as a decision is made. 4. Reminders Shortly after the expiration of 18 months from the priority date, the International application will be published by the International Bureau as provided in Rules 90/bi.1 and 90/bi.3, respectively.				
before the completion of the technical preparations for international publication. The applicant may submit comments on an Informal basis on the written opinion of the International Searching Authority to the International Bureau. The International Bureau will send a copy of such comments to all designated Offices unless an international preliminary examination report has been or is to be established. These comments would also be made available to the public but not before the expiration of 30 months from the priority date.				
Within 19 months from the priority date, but only in respect of some designated Offices, a demand for international preliminary examination must be filed if the applicant wishes to postpone the entry into the national phase until 30 months from the priority date (in some Offices even later); otherwise, the applicant must, within 20 months from the priority date, perform the prescribed acts for entry into the national phase before those designated Offices.				
In respect of other designated Offices, the time limit of 30 months (or later) will apply even if no demand is filed within 19 months.				
See the Annex to Form PCT/IB/301 and, for details about the app Guide, Volume II, National Chapters and the WIPO Internet site.

Form PCT/ISA/220 (January 2004)	(See notes on accompanying shee			

NOTES TO FORM PCT/ISA/220

These Notes are intended to give the basic instructions concerning the filing of amendments under article 19. The Notes are based on the requirements of the Patent Cooperation Treaty, the Regulations and the Administrative Instructions under that Treaty, in case of discorpsorpy between these Notes and those requirements, the latter are applicable. For more detailed information, see also the PCT Applicant's Guide, a publication of WIPO.

In these Notes, "Article", "Rule", and "Section" refer to the provisions of the PCT, the PCT Regulations and the PCT Administrative Instructions respectively.

INSTRUCTIONS CONCERNING AMENDMENTS UNDER ARTICLE 19

The applicant has, after having received the international search report, one opportunity to amend the claims of the international application, it should however be emphasized that, since all parts of the international application (claims, description and drawings) may be amended during the international pretaininary examination procedure, there is usually no need to file amendments of the claims under Article 19 except where, e.g. the applicant wants the latter to be published for the purposes of provisional protection or has another reason for amending the claims before international publication. Furthermore, it should be emphasized that provisional protection is available in some States only.

What parts of the international application may be amended?

Under Article 19, only the claims may be amended

During the international phase, the claims may also be amended (or further amended) under Article 34 before the International Preliminary Examining Authority. The description and drawings may only be amended under Article 34 before the International Examining Authority.

Upon entry into the national phase, all parts of the international application may be amended under Article 28 or, where applicable, Article 41.

When?

Within 2 months from the date of transmittal of the international search report or 16 months from the priority date, whichever time limit expires later. It should be noted, however, that the amendments will be considered as having been received on time if they are received by the International Bureau after the expiration of the applicable time limit but before the completion of the technical preparations for international publication (Rule 46.1).

Where not to file the amendments?

The amendments may only be filed with the International Bureau and not with the receiving Office or the International Searching Authority (Rule 46.2).

Where a demand for international preliminary examination has been fe filed, see below.

How?

Either by cancelling one or more entire claims, by adding one or more new claims or by emending the text of one or more of the claims as filed.

A replacement sheet must be submitted for each sheet of the claims which, on account of an amendment or amendments, differs from the sheet originally filed.

All the claims appearing on a replacement sheet must be numbered in Arabio numerals. Where a claim is cancelled, no renumbering of the other claims is required. In all cases where claims are renumbered, they must be renumbered consecutively (Administrative Instructions, Section 205(b)).

The amondments must be made in the language in which the international application is to be published.

What documents must/may accompany the amendments?

Letter (Section 205(b))

The amendments must be submitted with a letter,

The letter will not be published with the international application and the amended claims, it should not be confused with the "Statement under Article 19(1)" (see below, under "Statement under Article 19(1)").

The letter must be in English or French, at the choice of the applicant. However, if the language of the international application is English, the letter must be in English; if the tanguage of the international application is French, the letter must be in French.

Notes to Form PCT/ISA/220 (first sheet) (January 1994)

NOTES TO FORM PCT/ISA/220 (continued)

The letter must indicate the differences between the claims as filed and the claims as amended, it must, in particular, indicate, in connection with each claim appearing in the international application (it being understood that identical indications concerning several claims may be grouped), whether

- (i) the claim is unchanged;
- (ii) the claim is cancelled;
- (iii) the claim is new;
- (iv) the claim replaces one or more claims as filed;
- (v) the claim is the result of the division of a claim as filed.

The following examples illustrate the manner in which amendments must be explained in the accompanying letter:

- [Where originally there were 48 claims and after amendment of some claims there are 51]:
 "Claims 1 to 29, 31, 32, 34, 35, 37 to 48 replaced by amended claims bearing the same numbers; claims 30, 33 and 36 unchanged; new claims 49 to 51 added."
- (Where originally there were 15 claims and after amendment of all claims there are 11): "Claims 1 to 15 replaced by amended claims 1 to 11."
- 3. [Where originally there were 14 claims and the amendments consist in cancelling some claims and in adding new claims]: "Claims 1 to 6 and 14 unchanged; claims 7 to 13 cancelled; new claims 15, 16 and 17 added," or "Claims 7 to 13 cancelled; new claims 15, 16 and 17 added; all other claims unchanged."
- [Where various kinds of amendments are made]:
 Claims 1-10 unchanged; claims 11 to 13, 18 and 19 cancelled; claims 14, 15 and 16 replaced by amended claim 14; claim 17 subdivided into amended claims 15, 16 and 17; new claims 20 and 21 added."

"Statement under article 19(1)" (Rule 46.4)

The amendments may be accompanied by a statement explaining the amendments and indicating any impact that such amendments might have on the description and the drawings (which cannot be amended under Article 19(1)).

The statement will be published with the international application and the amended claims.

It must be in the language in which the international appplication is to be published.

It must be brief, not exceeding 500 words if in English or if translated into English.

It should not be confused with and does not replace the letter indicating the differences between the claims as filed and as amended. It must be filed on a separate sheet and must be identified as such by a heading, preferably by using the words "Statement under Article 19(1)."

It may not contain any disparaging comments on the international search report or the relevance of citations contained in that report. Reference to citations, relevant to a given claim, contained in the international search report may be made only in connection with an amendment of that claim.

Consequence if a demand for international proliminary examination has already been filed

It, at the time of filing any emendments under Article 19, a demand for international preliminary examination has already been submitted, the applicant must preferably, at the same time of filing the amendments with the International Bursau, also file a copy of such amendments with the International Prefiminary Examining Authority (see Bule 62.2(a), first sentence).

Consequence with regard to translation of the international application for entry into the national phase

The applicant's stiention is drawn to the fact that, where upon entry into the national phase, a translation of the claims as amended under Article 19 may have to be turnished to the designated/elected Offices, instead of, or in addition to, the translation of the claims as filed.

For further details on the requirements of each designated/elected Office, see Volume II of the PCT Applicant's Cuirte.

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/US2004/029615

_	Box	No	o. 1 Basis of the opinion
1.			gard to the language, this opinion has been established on the basis of the international application in guage in which it was filed, unless otherwise indicated under this item.
	0	lan	is opinion has been established on the basis of a translation from the original language into the following guage , which is the language of a translation furnished for the purposes of international search ider Rules 12.3 and 23.1(b)).
2.			gard to any nucleotide and/or amino acid sequence disclosed in the international application and ary to the claimed invention, this opinion has been established on the basis of:
	a. ty	pe	of material:
	ŧ	ב	a sequence listing
	(table(s) related to the sequence listing
	b. fo	orm	at of material:
	(in written format
	(in computer readable form
	c. ti	me	of filing/furnishing:
	1		contained in the international application as filed.
	1		filed together with the international application in computer readable form.
	(furnished subsequently to this Authority for the purposes of search.
3.		ha co	addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto s been filed or furnished, the required statements that the information in the subsequent or additional pies is identical to that in the application as filed or does not go beyond the application as filed, as propriate, were furnished.
4.	Add	itio	nal comments:

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/US2004/029615

Во	x No. II	Priority							
1. ① The following document has not been furnished:									
copy of the earlier application whose priority has been claimed (Rule 43bis.1 and 66.7(a)).									
	translation of the earlier application whose priority has been claimed (Rule 43bis.1 and 66.7(b)).								
	Consequently it has not been possible to consider the validity of the priority claim. This opinion has nevertheless been established on the assumption that the relevant date is the claimed priority date.								
2. 🖸	This opinion has been established as if no priority had been claimed due to the fact that the priority claim has been found invalid (Rules 43 <i>bis.</i> 1 and 64.1). Thus for the purposes of this opinion, the international filing date indicated above is considered to be the relevant date.								
3. 🗆	It has not been possible to consider the validity of the priority claim because a copy of the priority document was not available to the ISA at the time that the search was conducted (Rule 17.1). This opinion has nevertheless been established on the assumption that the relevant date is the claimed priority date.								
4. Add	ditional	observations, if neces	sary:						
	x No. V Iustrial				bls.1(a)(i) with regard to novelty, inventive step or is supporting such statement

Re Item V.

1. The following documents are referred to in this communication:

D1: US 6 539 377 B1 (CULLISS GARY A) 25 March 2003 (2003-03-25)

D2: US 2003/120654 A1 (TENG SHANGHUA ET AL) 26 June 2003 (2003-06-26)
D3: US 2002/049752 A1 (BOWMAN DWAYNE ET AL) 25 April 2002 (2002-04-25)

Objections under Article 33(2) PCT

 The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of claims 1-7,10,17,22-24 is not new in the sense of Article 33(2) PCT.

INDEPENDENT CLAIM 1

2.1 Document D1 discloses:

A method comprising (column 1 lines 25-28, "The present ... searchers."):

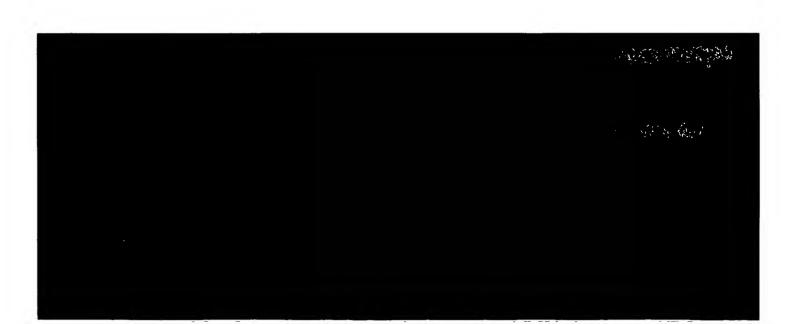

- (a) receiving a search query (column 2 lines 40 and 41, "As described ... a user ...");
- (b) determining a first related query to the search query (column 9 lines 48 and 49, "In addition ... queries...");
- (c) determining a first article associated with the search query (column 1 lines 44-46,
- "Accordingly ... information" and column 2 lines 40-43, "As ... scores.");
- (d) determining a first ranking score for the first article based at least in part on data associated with the first related query (column 10 lines 44-50, "Personalized ... scores." and column 11 lines 9-13, "It is ... queries.")

Since D1 discloses a method comprising all the steps of claim 1 in combination, therefore the subject-matter of claim 1 lacks novelty.

DEPENDENT CLAIMS

- 2.2 The subject-matter of claims 2-5 is not new because D1 discloses that the data associated with the related query comprises a total selection or instance scores (column 7 lines 24-39, "The previous ... characteristics.").
- 2.3 The subject-matter of claims 6.7,10,17 is not new because D1 discloses that articles have selection scores and scores based on the number times they were displayed to a user (column 2 lines 44-47, "Articles ... the article, etc.").

Form PCT/Separate Sheet/237 (Sheet 1) (EPO-January 2004)

2.4 The subject-matter of claims 22-24 is not new because D1 discloses that the ranking process is performed for plurality of articles displayed in the search results (column 10 lines 59-61, "Displaying ... score.").

Objections under Article 33(3) PCT

- 3. The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of claims 8,9,11-16,18-21,25,26 does not involve an inventive step in the sense of Article 33(3) PCT.
- 3.1 The additional technical features of dependent claims 8,9,11-16,18-21,25,26 represent only implementation details and do not contain any features which in combination with the features of any claim to which they refer, meet the requirements of the PCT in respect to inventive step.
- 4. The subject-matter of claims 27-52 corresponds in terms of a computer readable medium comprising a computer program product features to the that of claims 1-26. The objections raised in respect to claims 1-26, therefore, also apply, mutatis mutandis, to the corresponding claims 27-52.
- 5. The attention of the applicant is drawn to the fact that documents D2 and D3 cited in the international search report are regarded as very relevant state of the art in the sens of Article 33(2) and/or Article 33(3) PCT (D2 for claims 1,6,10-27,32,37-52 and D3 for claims 1,6,10,15,27,32,37).
